## Professional Summary

Senior Software Engineer with **4 years of professional experience** specializing in **React Native, TypeScript, JavaScript, and mobile application development**. Experienced in owning mobile products end-to-end, from requirements analysis and architecture planning to development, testing, production release, and support. Proven experience building scalable insurance applications and implementing **Micro-Frontend Architecture using Re.Pack for a Super App**, with integrations including **native iOS/Android capabilities, Google ML Kit, payment gateways, and application monitoring solutions**. Recognized with **Master Mind Award and Tech Titan Award** for technical contributions, project delivery, and execution excellence. Experienced in technical guidance, code reviews, production troubleshooting, and AI-assisted development.

## Skills

**Languages:** JavaScript, TypeScript.

**Frameworks & Libraries:** React Native, React.js, Redux, Redux Toolkit (RTK), React Navigation.

**Mobile Development:** Android, iOS, Native Modules, Cross-Platform Development

**Architecture:** Micro-Frontend Architecture, Super App Architecture, Re.Pack, Component-Based Architecture

**API & Integrations:** REST API Integration, Third-Party API Integration, Payment Gateway Integration

**Payment Platforms:** Paytm, Razorpay, Apple Pay, PhonePe.

**Testing:** Jest, Detox.

**Monitoring & Analytics:** Firebase, Firebase Crashlytics, Dynatrace, UserExperior, AppsFlyer, Reactotron.

**Development Tools:** Android Studio, Xcode, Visual Studio Code, Postman.

**Version Control:** Git, GitHub, GitLab, Bitbucket.

**CI/CD & Deployment:** GitHub Actions, Jenkins, Fastlane, App Store Deployment, Google Play Store Deployment.

**AI-Assisted Development:** GitHub Copilot, ChatGPT, Claude, Gemini.

**Engineering Practices:** Debugging, Performance Optimization, Code Review, Production Support, Release Management.

## Work Experience

**Digit Insurance, Bangalore** Nov 2022 – Present **Senior Software Engineer**

- Developed and maintained scalable **React Native mobile applications** using TypeScript, JavaScript, Redux, Redux Toolkit, and React Navigation.
- Managed the **end-to-end Software Development Life Cycle (SDLC)** from requirements analysis and technical design through development, testing, deployment, and production support.
- Implemented **Micro-Frontend Architecture using Re.Pack** for a scalable **Super App** platform.
- Developed **Life Insurance Endorsement, Annuity, and Pension payout workflows** using React Native.
- Integrated **Google ML Kit, camera APIs, facial/liveness detection, and Speech-to-Text** for customer verification and digital workflows.
- Integrated and monitored production applications using **Firebase Crashlytics, Dynatrace, UserExperior, AppsFlyer, and Reactotron** for debugging, analytics, and performance monitoring.
- Developed automated test cases using **Jest and Detox** to improve application quality and regression coverage.
- Managed **CI/CD pipelines and mobile application releases** using **GitHub Actions, Jenkins, and Fastlane** for App Store and Google Play Store deployments.
- Provided **technical guidance, code reviews, debugging support, and implementation guidance** for a 2-member development team.
- Recognized with **Master Mind Award and Tech Titan Award** for technical contributions, project delivery, and execution excellence.

**PluginHive, Bangalore** Oct 2021 – Nov 2021 *Software Developer Intern*

- Developed **barcode and QR-code generation modules**, improving processing speed by **30%**.
- Integrated shipping carrier APIs for automated **shipping-label generation**, reducing fulfillment time by **20%**.
- Developed **React Native components and REST API integrations** for e-commerce and logistics applications.

## Education

Bachelor of Engineering (B.E) **East Point College of Engineering & Technology, VTU**, Bangalore Aug 2018 – Jun 2022

## Awards and Certificates

- **Master Mind Award:** Recognized for technical contribution and successful execution of the Super App Micro Frontend (MFE) project.
- **Tech Titan Award:** Recognized for technical contributions, project delivery, and execution excellence.
- **VMware IT Academy:** Software Defined Storage Concepts [Credly](#) , Network Virtualization Concepts [Credly](#) , Virtualization Concepts [Credly](#).
